Academic Leaders Council

About One Community One Goal

- **One Community One Goal (OCOG)** is the roadmap for Miami-Dade County's future economic development success. It offers strategic recommendations aimed at creating an environment of significant job creation with a focus on new higher-paying jobs within the target industries. It is a community-wide effort that provides a unified vision for long-term economic growth in Miami-Dade County.
- **Education** has been identified as the foundation of OCOG and is the key driver of the seven target industries.

About the Academic Leaders Council

- **The One Community One Goal Academic Leaders Council**, whose members have been recognized as being among the top educational leaders in the country, has been established as a result of OCOG. Its' aim is to create an educational ecosystem that aligns with local business needs in order to ensure the workforce is both available and trained properly.
- One outcome of the work of the Academic Leaders Council (ALC) is the Catalog of Academic Offerings, which serves as a baseline measurement by which to gauge the progress of the ALC member institutions' commitment to aligning their curricula with industry needs.
- OCOG supports the ALC and the implementation of key education recommendations

OF MIAMI

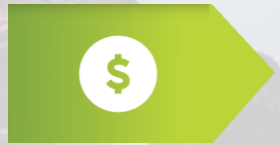

Academic Leaders Council: Primary Aims

1. Growing skills and producing the next generation of talent
2. Aligning curriculum with current workforce demands
3. Ensuring students graduate with the skills required by the seven targeted industries.

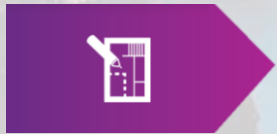

Seven Target Industries

Aviation

Banking & Finance

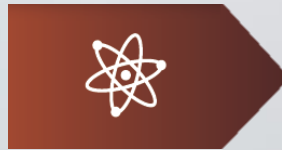

Creative Design

Hospitality & Tourism

Information Technology

Life Sciences & Healthcare

Trade & Logistics

The Talent Development Network

1. The Talent Development Network (TDN) is an internship portal, product of a collaboration between seven academic institutions, and housed out of FIU.
2. TDN is a result of the work of the ALC.
3. TDN is rooted in the belief that education is critical to our economic vitality.
4. A strong educational ecosystem is critical to the economic vitality and success of our community.
5. Attracting and retaining top talent is key. It grows the economy faster than other more traditional measures of economic development.
6. The initiative continues to have a positive impact on the internship culture across Miami-Dade County.

TDN:Our Success

- To date we have had:
 - Over **1152** students had registered at TDNmiami.com and uploaded their resume.
 - We recruited **296** employers to register and post their internships.
 - More than **469** internships posted.
 - **90%** of the internships posted were paid opportunities.

Thank you!
