

## About Us

Formed in 2015, we are a collective impact initiative working to protect and build up our region's educational and economic competitiveness. Backed by a skilled, employment-ready, and adaptive workforce.

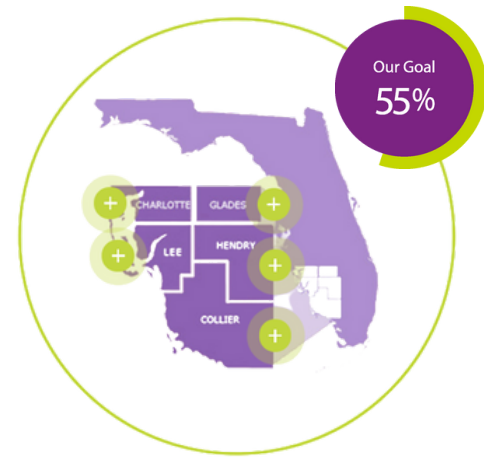

# FutureMakers Coalition

More than 60% of jobs in Florida will require education beyond high school by 2025. Futuremakers is aligning our region's cross-sector partners to ensure those looking for a job or returning to work have the skills employers seek.

## TALENT LIVES HERE

As a region, we aim to increase the percentage of adults aged 25-64 with education beyond high school from 41% to **55 percent**. In addition to helping our economy, individuals can improve their quality of life by upskilling and earning degrees, or credentials that area employers are searching for in our region's locally-grown talent pool.

**140+**  
organizations

**251**  
active individuals

# 60%

**60 percent** of our partners have experienced a significant increase in their ability to develop practices that better serve Southwest Florida's students of all ages, including adults.
